ABOUT ME

Dynamic Team Lead bringing proven expertise in ERP Customization and Software Development/Integrations, eager to contribute outstanding leadership skills and technical knowledge towards achieving team goals. Actively seeking to apply and expand my skill set in your esteemed organization.

WORK EXPERIENCE

Senior .Net Developer, Arabian International Company for Steel, Jeddah - Kingdom of Saudi Arabia (KSA)

Apr 2023 - Present (United Arab Emirates – UAE, Ras Al Khaimah)

Feb 2011 - Mar 2023 (Kingdom of Saudi Arabia – KSA, Jeddah)

Successfully implemented the ERP System (Integrated Financial System - IFS) in various companies under AIC Group in multiple countries. Implementation of modules includes Inventory, Production, Engineering, Planning, Heavy Equipment, Procurement, Logistics/Dispatch, HR & Payroll, Service & Maintenance, Planning, Invoicing (ZATCA Implementation).

Production module was partially used from the IFS and most of the process was implemented by customization (In-house development) as integration was required with engineering software. All the other modules were customized to meet the business process requirements.

There are integrations that have been made between ERP Software & Engineering software such as mentioned below.

Integrated software:

- Tekla Structures
- PLM
- Lantek
- ProCam
- Raptor
- Andon
- IFS ERP (Integrated Financial System)
- Barcode Systems

Solutions provided using:

- WinForms
- Web Forms
- Web Services
- Console Applications
- Android Applications
- DB Scripts
